Secondary School Of Certificate (8.5 CGPA)

Project

Jobby App

[project1_link](#)

Technologies used : React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Brought to life an all-encompassing job search platform, Jobby App.

- Created pages for Login, Home, Jobs, and Job item details with React components, form inputs, and event handlers.
- Secured user information with JWT tokens, REST API calls, and local storage.
- Utilized React Router for protected routes and persisted login state.

Nxt Trendz (ECommerce Clone - Amazon,

[project2_link](#)

Flipkart)

Technologies used : React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Implemented Nxt Trendz application which is a clone for ECommerce applications

like Amazon, Flipkart where users can login and can see list of products with search, filters, sort by, etc..

- Implemented Different pages and routes for Login, Products, Product details using React Router components Route, Switch, Link, props, state, lists, event handlers, form inputs.
- Authenticating and authorizing users by taking username, password and doing login POST HTTP API Call and implementing filters by sending them as query parameters to product api calls.
- Persisted user login state by keeping jwt token in local storage, Sending it in headers of further api calls to authorize the user.

IPL Dashboard

[project3 link](#)

Technologies used : React JS, Routing, REST API Calls, CSS, Bootstrap

Created a comprehensive dashboard for IPL teams and matches.

- Used React Router for smooth navigation, displaying team information and matches with REST API calls
- Implemented a 404 page for invalid routes.

Experience

9arts media (Front End developer)

Feb 2024 - Feb 2024

hyderabad, Telangana

As part of the development team for a political app, I was responsible for designing and implementing the frontend interface to ensure a seamless and engaging user experience. My work focused on creating a responsive, user-friendly, and visually appealing application that allowed users to access political information, participate in polls, and engage with content effectively.
